

# Zeynep AĞACIKOĞLU

## Senior Industrial Designer | UI/UX Designer

Experienced in technology sector as a product designer in R&D department to identify user needs, create prototypes and testing them on the field. Graduated from industrial design and had a master degree in graphic and service design. Designed products, mostly for military, which are being used all over the world. Good at product management, wireframing, explaining complicating concepts in simple UI layouts and finding creative solutions to the problems.
